

COMPLETE FOUNTAIN FNS-300

Information

Artical Numbers:

FNS-300/ADL FNS-300/TJ

Description

Complete fountain kits ideal for areas that need an intense, impressive decoration. Each kit includes all the necessary fountain units to form a complete fountain ready for operation. The kit is structured on a round-shaped base equipped with three light units and one jet. The base is made of stainless steel, AISI-316 and is covered by a stainless steel, AISI-316 protection screen. Special legs installed on the base are adjusting the height of the fountain kit. The ADL-135 fountain nozzle is offering an impressive water effect of 3 m height. Three lights of 120W each are illuminating the fountain effect water. The kit is powered by a stainless steel submersible pump of 0,50KW. Control panel and cable are also provided.
